Steve Dillard,

Good Morning! I wanted to take this opportunity to thank you and your company for the quality of service that you have provided for me and my local union: International Brotherhood of Electrical Workers 1753 in Charleston South Carolina! As you are aware, our employer has undergone several acquisitions in recent years which left us (all of the employees) in a very precarious state as regards our pensions, savings and investments as we approach retirement age. When I asked you, Dillard financial Solutions Inc. to step in on behalf of the union men and women here and advise us, without hesitation you and some of your staff arrived immediately to provide the answers and reassurance that was needed to put us on track for our retirement futures! The relaxed, trustworthy and comfortable style with which you conduct business sets you apart from others and is greatly appreciated!

As the President/Business Manager for this local and on behalf of its membership, I cannot thank you enough for all that you do to make us successful and secure in our financial future!

I Therefore remain Respectfully yours,

Mark W. Shipman

I.B.E.W. 1753
